Subject: [External] Blue Granite Water and Dominion Energy Increase Proposals

Dear Commissioner Belser,

It has come to my attention that both Blue Granite water and Dominion Energy are requesting increases in the Lexington and West Columbia SC area. We are strongly opposed to yet another increase. As our representative we are asking that you share with us the concerns that will put yet another hardship on a struggling economy. I am involved in a neighborhood meeting that now is fuming over this as well as the other issues that plague our community. They are recommending that each citizen call you or pre register to testify against a pay increase.

I am reaching out to you as a courtesy on your behalf to plea the case for the neighborhoods that have elderly people that are struggling to make ends meet and the parents who are doing all they can to provide for their families.

Thank you in advance for assisting in any way you can to stop the increases from affecting your communities.

Sincerely,

Emmaline Leach
